# Charter Business

## Telephone

**The features and functionality you need:** Business lines for small business with a choice of affordable long-distance plans, including unlimited long-distance, voicemail, and popular calling features such as **Caller ID, Call Waiting, 3-Way Calling, Speed Dial 30, Call Forwarding, Hunt Group, and many more!**

Additional lines, enhanced feature packages that include hunt group, and/or long-distance calling packages may be added for an additional monthly fee.

**Easy to switch:** Keep the same phone numbers and existing equipment you already have at your office when you switch.

## Video & Music

**Liven up your workplace:** Keep customers entertained and employees informed with a wide selection of sports, news, movies, and local channels at no additional cost.

**Draw a crowd:** The biggest sporting and cultural events are available on Charter Pay-Pre-View.

**Relaxing music:** Enjoy commercial-free music with up to 45 channels to choose from - perfect for waiting rooms, lobbies, restaurants, and break rooms.

### FEATURES:

- Local channels, premium channels, and entertainment tiers are available
- HD programming including local HD broadcasts (where available)
- Up to 45 channels of commercial-free music
- Special programming packages for hotels

## High-Speed Internet

**Internet at the speed of business:** From basic connections with up to 10M download and 2M upload speeds to dedicated fiber-optic networks with symmetrical speeds up to 1G, we have the capacity to handle a one-person start up, and international corporate headquarters, and anything in between.

**Always on, always reliable:** Services are provided via our state-of-the-art network, so you know they're coming from us, not an unknown source.

**You won't pay too much or get too little:** Internet speeds can be gradually increased with the needs of your business

**Integrated Security Features:** Up-to-date internet and email security features keep you and your business safe.
