Exchange 9040

VoSKY breaks through another technological barrier with the VoSKY™ Exchange 9040/9080, the first Skype™ certified solution for virtually every type of PBX equipment. With this rack-mountable, business class, PBX gateway for Skype, small and medium-sized businesses (SMBs) can finally take advantage of the largest free VoIP network in the world to connect, communicate and collaborate with employees, customers and partners.

Simple Ways to Reduce Your Communication Costs

1. Reduce the number of Telco POTS lines you have by replacing them with Exchange/Skype lines.
2. Create a Voice Intranet with Exchange/Skype for FREE intraoffice calls between locations.
3. Encourage partners & suppliers to use Skype for FREE calls to and from your company.
4. Reduce 1-800 costs with Web-based Click-to-Dial using Exchange/Skype.
5. Add Incoming phone lines from almost anyplace for \$ 3.95 month.
