

Alerts

Alert Name	Alert Type	Alert Status	Alert Date	Alert Time	Alert Location
Excess Idle	Alert	Active	1/15/2018	4:00:00 AM	
Speeding	Alert	Active	1/15/2018	4:00:00 AM	
Late Start	Alert	Active	1/15/2018	4:00:00 AM	
Activity	Alert	Active	1/15/2018	4:00:00 AM	
Long Stop	Alert	Active	1/15/2018	4:00:00 AM	
Towing	Alert	Active	1/15/2018	4:00:00 AM	
Vehicle Maintenance	Alert	Active	1/15/2018	4:00:00 AM	

Excess Idle

If the ignition is on, but the vehicle has not moved after a set time period, an excess idle alert is activated.

Speeding

Keep drivers and vehicles safe by receiving notice of any vehicles traveling at speeds higher than your specified limit.

Late Start

Enter a driver's start time, and receive notification if the vehicle starts behind schedule.

Activity

Set parameters for off-hour times, and the activity alert will notify you of any unauthorized vehicle use.

Long Stop

Know if a technician is running behind or has a longer job than anticipated

Towing

A towing alert activates when vehicle movement is shown but the ignition is off.

Vehicle Maintenance

Vehicle due for service? Mileage-based and date-based maintenance alerts can be sent to you or right to your repair shop.

1. GPS satellites send latitude and longitude data to the vehicle-based hardware unit.
2. The hardware unit combines other vehicle data like ignition status, speed and idling time with the GPS location data.
3. The location and vehicle data is sent over a nationwide wireless network to operations center.
4. From our operations center, the data is aggregated and sent to your Mobile Control online account.
5. Get 24/7 access to all of your vehicles' activities in real time through the easy-to-use online Mobile Control interface.

GPS FLEET TRACKING

The Choice for GPS Fleet Tracking

Mobile Control GPS Fleet Tracking

Mobile Control delivers powerful real-time GPS tracking with comprehensive management tools in a user-friendly package.

- Mapping
- Routing
- Reports
- Analytics
- Alerts

A comprehensive set of management tools:

- **Industry-leading mapping** that enables you to view and direct your fleet activities in real time.
- **Flexible reports** provide vehicle history including details on travel and stops, mileage, exceptions and more.
- **Real-time alerts** inform you immediately about important activities like speeding, off-hours operation and other unauthorized vehicle use.
- **Vehicle Management** tools keep you in control of your service needs
- **Routing** is straightforward to help you get your drivers where they need to be
- **Analytics tools** easily chart and browse key performance metrics across your entire fleet.

Mapping

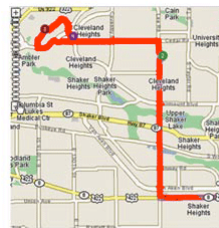

- See your vehicles in a user-friendly interface using state-of-the-art mapping technology
- Customizable color-coded vehicle ID balloons show key info like speed, location and more
- Auto-zoom map design focuses your view Current real-time vehicle locations can be used for routing
- Send an SMS text or email message to a driver directly from your Mobile Control account

Routing

Quick, Intuitive and Flexible Routing

- Route a vehicle from its current real-time location
- Use GeoFences or Landmarks as destinations or starting points
- Get single-point or multiple stop route directions easily
- Use "Optimize" tool to organize stops into the most efficient order
- Save regular routes in your account or display on your map view
- Send directions via email or print route slips

Mobile Control's routing tools are designed to be fast, intuitive and flexible enough to meet your business's unique needs

Reports

Report types include:

Name	Date Range		
Travel And Stops	01/17/08 12:00AM - 01/18/08 12:00AM		
Mileage	01/16/08 12:00AM - 01/17/08 12:00AM		
Mileage	01/25/08 12:00AM - 01/27/08 01:00AM		
Travel And Stops	01/26/08 12:00AM - 01/27/08 12:00AM		
Mileage	01/25/08 12:00AM - 01/27/08 11:01AM		

Travel & Stops: The timesheet for your fleet, featuring stop locations, travel times, idling times and more.

Speeding: See which drivers exceeded the speed value you specified.

Management Summary: The easy way to see out-of-policy activities like speeding, long stops or weekend movement in a single report.

State Mileage: Accurate mileage calculations for each vehicle, broken down by state for tax reporting or record validation.

Vehicle Maintenance: See the details on which repairs and maintenance activities were scheduled or completed for your fleet.

Save Time and Effort with Automated Reports

Analytics

Comparisons Help You Identify Areas for Improvement

- Compare an individual vehicle to your entire fleet's average to spot opportunities for improvement or isolate best-in-class performers
- Compare your entire fleet's performance from month to month to see how changes in your business and in the market are affecting your results
