## ***Website Design Service***

Website design and development requires a balance of creativity, usability and technical knowledge of the latest web technologies. A properly thought out design website adds value to the company's were a poorly executed website will actually turn customers away.

### **Some Things to Consider when Building Your Website:**

1. Website should be custom, unique, and original. Something that stands out from the competitors.
2. Customers should immediately find what they are looking for.
3. Get to the point, don't get too wordy.

### **Prices:**

Website starts at \$250

Monthly Service \$ 50 mo.  
for unlimited changes.

We design website for various types of Business/ Organizations. If you are looking for new website design or looking to give your business a total new look to your website than we can do right job for you.
